

# The Children's Book Bank – Book Use Survey

The Children's Book Bank seeks to encourage family reading and to better prepare children for school by placing carefully selected bundles of books into the hands and homes of children in low-income households.

The Children's Book Bank hopes you and your student's family have enjoyed the collection of children's books that were provided. Please complete and return this survey so that we may evaluate the impact of our program in our community.
